# Release Plan

## **Team:**

Brad Bernard (PO)

Daniel Lee

Christopher Huynh

Cindy Tiet

Christopher Hsiao

Johannes Pitz

## High Level Goals

RiftBets is an eSports betting application that allows you to show off your knowledge about professional League of Legends games (NA LCS, EU LCS, and LCK).

## User stories for release

### ➤ Sprint 1

- (8) As a developer, I want to be able to set up the laravel environment on a virtual machine.
- (21) As a developer, I want to understand the existing data scraping code, so that I can work on it.
- (13) As a developer, I want to understand the relational database schema, so that I am able to expand and use it.
- (21) As a developer, I want to learn the front end tools.
- (13) As a developer, I want to add match subscriptions.

76/76 story points accomplished.

### ➤ Sprint 2

- (21) As a user, I want to bet on live games.
- (5) As a user, I want to watch the games on the betting site, so that I don't have to go back and forth.
- (13) As a user, I want to get feedback on bets as soon as the game ends.

### ➤ Sprint 3

- (21) As a user, I want to create compare my bet performances on a leaderboard (with my friends).
- (13) As a user, I want to be rewarded for placing risky bets (scale reward based on previous statistical data).

## Product Backlog

- (13) Achievements
- (13) Tournament mode / brackets (User Profile)
- (21) Live bet grading
