Sprint 1 Report , RiftBets, 02/14/17

• <u>Actions to stop doing:</u>
- Stop showing up late to coding meetings without communication
- Stop showing up late to scrum meetings without communication
- Keep SCRUM to fifteen minutes timeboxed instead of going over

• <u>Actions to start doing:</u>
- The team members should read the documentation before asking questions.
- Team members should code more as they watch tutorial videos instead.
- Team members should start working on tasks individually so that we don't have to always meet to get work done since our free time is not usually overlapping.

• <u>Actions to keep doing:</u>
- As a team we should keep working on the project in group settings.
- As a team we should keep reading the documentation and video tutorials
- As a team we should keep staying focused during our coding meetings to stay on track for our sprints
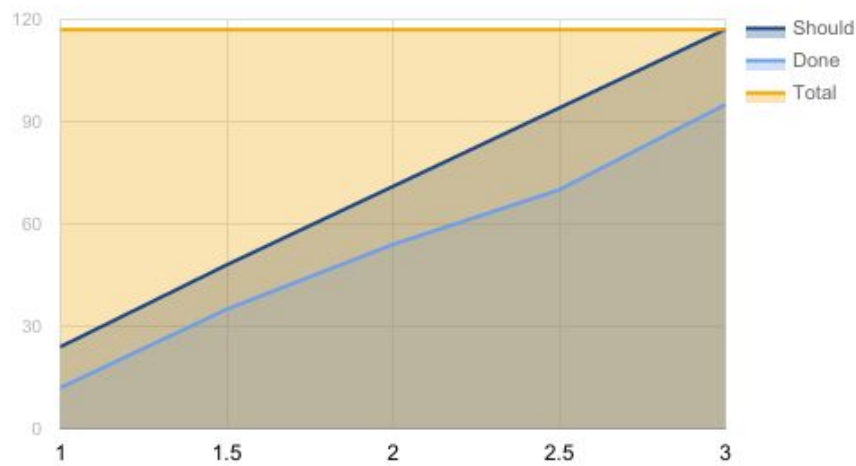

• <u>Work completed/not completed:</u>

- (8) As a developer, I want to able to set up the laravel environment on a virtual machine.
- (21) As a developer, I want to understand the existing data scraping code, so that I can work on it.
- (13) As a developer, I want to understand the relational database schema, so that I am able to expand and use it.
- (21) As a developer, I want to learn the front end tools.
- (13) As a developer, I want to add match subscriptions.

• <u>Work completion rate:</u>

- 5/5 user stories were completed
- 117 ideal work hours completed
- 21 days in Sprint 1
- Roughly 5.5 hours per day of work
- Approximately .2 user stories per day completion rate
- See burn-up chart for Sprint 1
